The screenshot shows the Visual Studio Code interface. On the left, the Explorer sidebar shows a project named 'Gitflow-Lab-5' containing 'app.py' and 'README.md'. The main editor area displays 'README.md' with the content: `# Gitflow Lab 5 - develop Version`. Below the editor, the Terminal window is active, showing a series of git commands and their outputs. The commands include `git status`, `git add .`, `git status`, `git checkout develop` (which fails due to conflicts), `git commit -m "Update readme for conflict feature"`, and `git checkout develop` (which succeeds, showing the branch is ahead by 2 commits).
